(S/NF) One telephone number in the CAU analysis of Chmiel's phone was linked to a highly classified CIA cable. The completion of the closing communication for this case was delayed in anticipation of receiving information about this cable and including this information in this communication. However, the FBI has been found not to have been included on distribution for this cable, and so receipt of this cable, if possible, will likely take a significant time period. For this reason, further delay of this closing communication is not deemed feasible. If this cable is received and provides further adverse information on Chmiel, consideration will be given to reopening this case.
